

Ana Bautista

May 5, 2014

Basalt is a great place but I think I can make it better. First of all what I thought about was a big hotel. A hotel would be a good place for fishermen to stay because the hotel is next to the river and they can have access to the river to fish.

I also think they should build a library and park because you can go to the park or library after school. There should also be a bank and a park next to the bank because when a parent is in the bank their kids can go to the park. I think in

Basalt is a great place but it needs more style so I included some stuff to on my map. I included a playground, pet shop for animals to get adopted. I also included moat (a mine house w/er grand clinic a basement) and a race track.

I have a dozen good Ideas
for basalt. But let me tell you
a few of them. I have a Nature
Park, a diving board, and a park, none
of these things are harmful
to the environment. Thank you

I think people should pick my place because I have ideas that ~~have things~~ that are not so much money. Also I have a rafting place by the river and lots of trees. I also have easy things to make. For the Jungle place just plant trees (lots). Trees don't have to cost so much also. People also should pick my place because it has fun things.
